

SOLSEL®

Pure by nature.

UNIVERSAL

Mineral lick blocks
without copper
for the supply of essential
trace elements.

Along with salt (sodium chloride), every animal consumes a series of minerals and microelements like zinc, manganese, copper, iron, iodine, and selenium. Each of these elements takes on important roles within animal organisms.

SOLSEL® Universal mineral lick blocks without copper were developed especially for the feeding of sheep. The formula was composed without the element of copper in order to exclude any intolerances for this kind of animal. SOLSEL® Universal mineral lick blocks are also perfectly suitable for cattle, horses, goats, and game.

Mineral feed for

cattle, horses, sheep, goat and game

Composition:

98% Sodium chloride, 0.6% Calcium carbonate

Ingredients:

Sodium 38%, Calcium 0.5%, Magnesium 0.1%, Phosphorus 0.0%.

Nutritional feed additives:

Zinc, from zinc oxide (3b603) 1,000 mg/kg; Manganese, from manganese(II) oxide (3b502) 1,000 mg/kg; Iron, from iron-(II)-carbonate (3b101) 200 mg/kg; Iodine, from calcium iodate anh. (3b202) 100 mg/kg; Selenium, from sodium selenite (3b801) 20 mg/kg.

Shipping units:

EURO-pallets with 5-kg or 10-kg blocks

Suitable
for organic
production!
